

## FM-200 (HFC-227ea)

- Efficient alternative to Halon 1301
- Zero ODP
- Discharge time: 10 seconds
- No residue to clean up after discharge
- Safe for people
- Safe for valuable equipment
- Electrically non conductive
- The Boiling Point of  $-16,4^{\circ}\text{C}$  assures a rapid and homogenous distribution
- Excellent cost to efficiency ratio
- Included in ISO 14520, and NFPA 2001 Standards
